Madhu Mishra

Frontend Developer(React)

PROFESSIONAL SUMMARY

Dynamic and results-oriented Biotechnology graduate with a strong foundation in software development. Proficient in React.js along with JavaScript, HTML, CSS, and Git. Collaborative and detail-oriented, I excel in developing high-quality user interfaces that are visually appealing. With a proactive and self-motivated attitude, I leverage my problem-solving skills to deliver exceptional user experiences and drive projects from conception to completion.

PROJECTS

1. ZEN-Mart | |

JavaScript | HTML5 | CSS3 | Responsive Web Design | Bootstrap

- Collaborated with a team of 4 to create a fully functioning website within a tight deadline of 5 days
